Dear Sir:

The Examiner has issued a restriction requirement calling for the applicant to identify a single disclosed species for prosecution on the merits to which the claims would be restricted if no generic claim were held allowable. Therefore, applicant elects the group I claims (the apparatus claims). The claims readable on the claimed apparatus are claims 1 through 23 inclusive. All other claims may be deemed withdrawn.

**Amendments to the Claims** are reflected in the listing of claims that begins on page 2 of this paper.

**Listing of Claims** begins on page 3 of this paper.

**Remarks** begin on page 8 of this paper.
